Title: The smell of despair in the air (বাতাসে হতাশার গন্ধ)

Fall 2023

Submitted By

Al Eakram Mahmud Shoumik (223012003)

Submitted To

A F M Moniruzzaman Shipu

Assistant Professor

Department of Media Studies and Journalism

Full Mark: 25

Deadline: Dec 20, 2023

Each student must individually fill up the following form to write the report on her/his group/individual project for the final term examination.

Reporter's ID: 223012003

Reporter's name: Al Eakram Mahmud Shoumik

Question	Answer		Point
Title of your work:	The smell of despair in the air (বাতাসে হতাশার গন্ধ)		01
Group details (if any)			
Group name:	Trash D Crew		01
Group member's list. (Write your group members' names with their IDs.)	Member's ID	Member's name	01
	223012003	Al Eakram Mahmud Shoumik	
	223012074	K. M. Mahmudul Hasan	
	223012040	Golam Safin Mahmud	

	223012027	Prarthana Fardin Dighi	
Theme			
CI theme: (Write about the semester theme ‘ecosystem restoration’ in your language.) (50-150 words)	The concept of ecological restoration pertains to the interplay between microorganisms, plants and animals in their environment. Unfortunately, these life forms are at risk from human activities that can lead to destruction or harm. The main focus is on restoring damaged environments without causing further harm instead of letting them evolve naturally through maturity.		01
Group/Individual theme: (What was your theme? Why did you take this theme?) (150-250 words)	Our main theme is air pollution. We will show both good and bad parts of the air. Earlier, we had good air, and now we have made the air worse. We will also have a world. We will show that there was good or pure air in the midst of this world, which we have polluted. As a result of this, acid rain is also occurring. The clouds are turning black. We will show that too. The reason behind our taking up this theme is that we feel that air pollution is one of the biggest problems that people are currently suffering from. Due to this, every year thousands of people in our country suffer from various airborne diseases, including asthma and allergies. Even people are losing their peace of mind by worrying about these things. Suffering from various types of depression. Besides, many people are dying. We feel that people should be aware of or informed about this. It is for that purpose that we have taken up our theme of air pollution.		02

Layout & Plan:

(Attach the image of your layout)

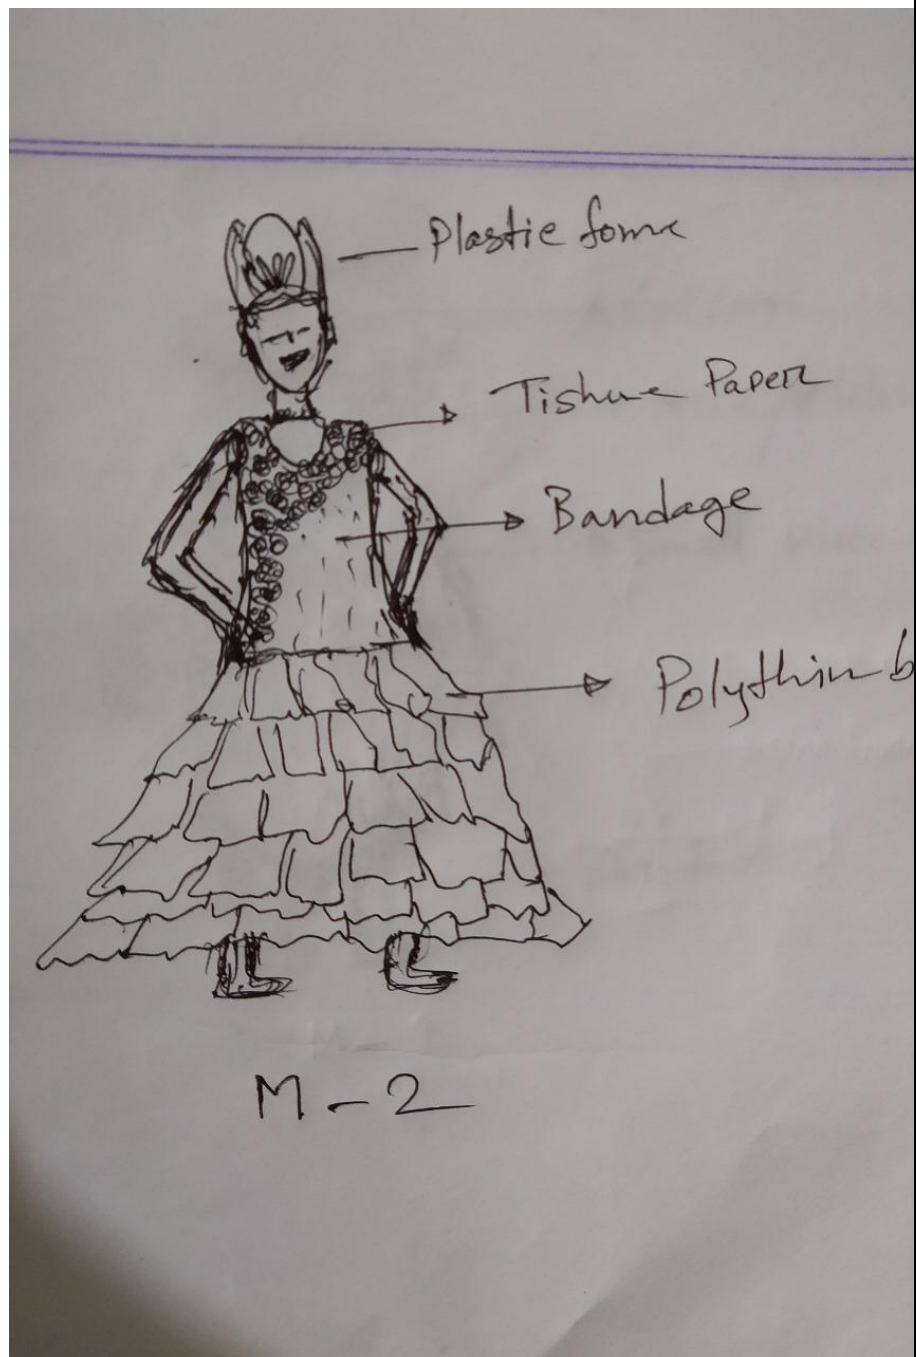

(Why and what kind of fashion did you want to do?)

(150-250 words)

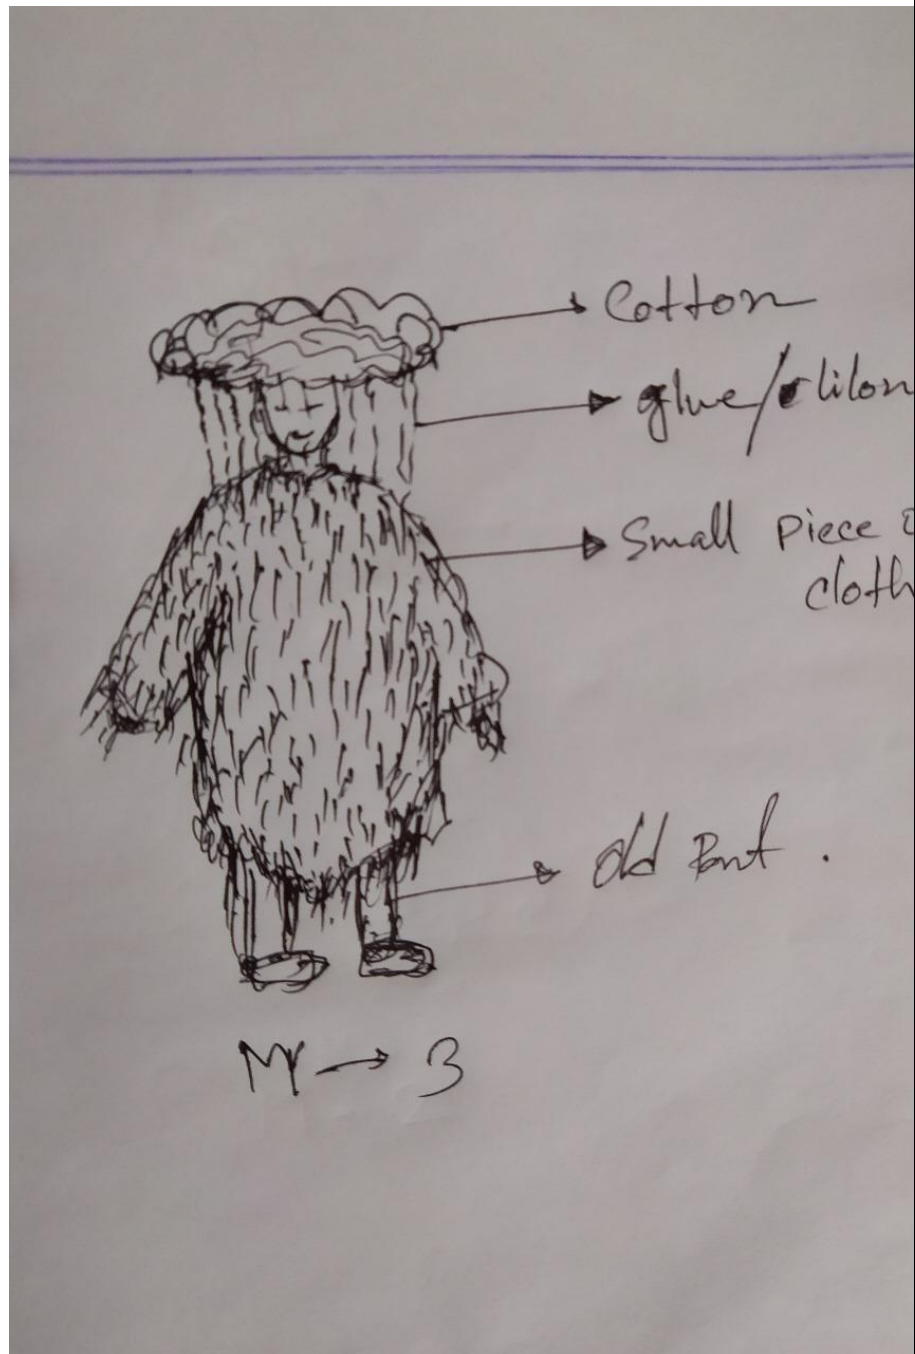

02

Model-1

Model-2

Model-3

Our concept is air pollution.

	Model 1: There are basically three characters in our concept. Here one would be 'The Earth King' to explain the world. He will be dressed like a king, with a crown on his head and a scepter in his hand, with a symbol of the earth on a cloud. Also, the back part of the king's clothes will be understood using the mosquito net. Also, glass and straw will be used for the main parts of pants and clothes. In all matters, the king's solemnity and nobility will emerge. Model 2: There will also be two more characters where a girl will show a clean, beautiful, and pollution-free image of the earth's air. The dress symbolizes the beauty and whiteness of the air on earth. White tissue paper is used now. White bandage, too. Since the white color is a symbol of whiteness, we are using white tissue paper and bandages to represent it. Besides, the beauty of nature will be understood through polythene. Model 3: Then there will be another man to symbolize the pollution and pain of the earth's air. In his character, the polluted side of the earth's air will emerge. Here we will try to show the corrupt nature. The big hat on the boy's head will be a dark cloud. Which is a symbol of polluted air. Also, the part made of glue with the cap symbolizes nature's cry and acid rain. Other ill effects of nature's wind will be revealed.	
Production: (Please write about the production process of your work from the beginning including materials you used, the place you worked at, any obstacles you faced, any	First, we form a team for the trashion show. We have a meeting. I mean, who will be the model, what will be the theme, how will the plan be, and what will be the layout? We discussed these for 3 days. Then we collect the materials needed to make the clothes, such as tissue paper, bandages, bags, glass pieces, straw, polythene, pieces of cloth, old jackets, and trousers. After that, we all decided that since Safin's house is near, we would do all our work at Safin's house. We all went up to Safin's house. On the first day, we made the dress, the dirty dress, for Safin. First, we cut the cloth into small pieces with scissors to make it. Then sew with the help of a needle and thread. Since we are all doing this for the first time, Ullash's hand gets wet while sewing. Blood comes out. Since I can't see the blood, we turn around. Then on that day, we cut the bag of chat, put cotton on the hat,	04

improvisation you did, the result came out at the end.)

(Please attach some images of your production process.)

(300-400 words)

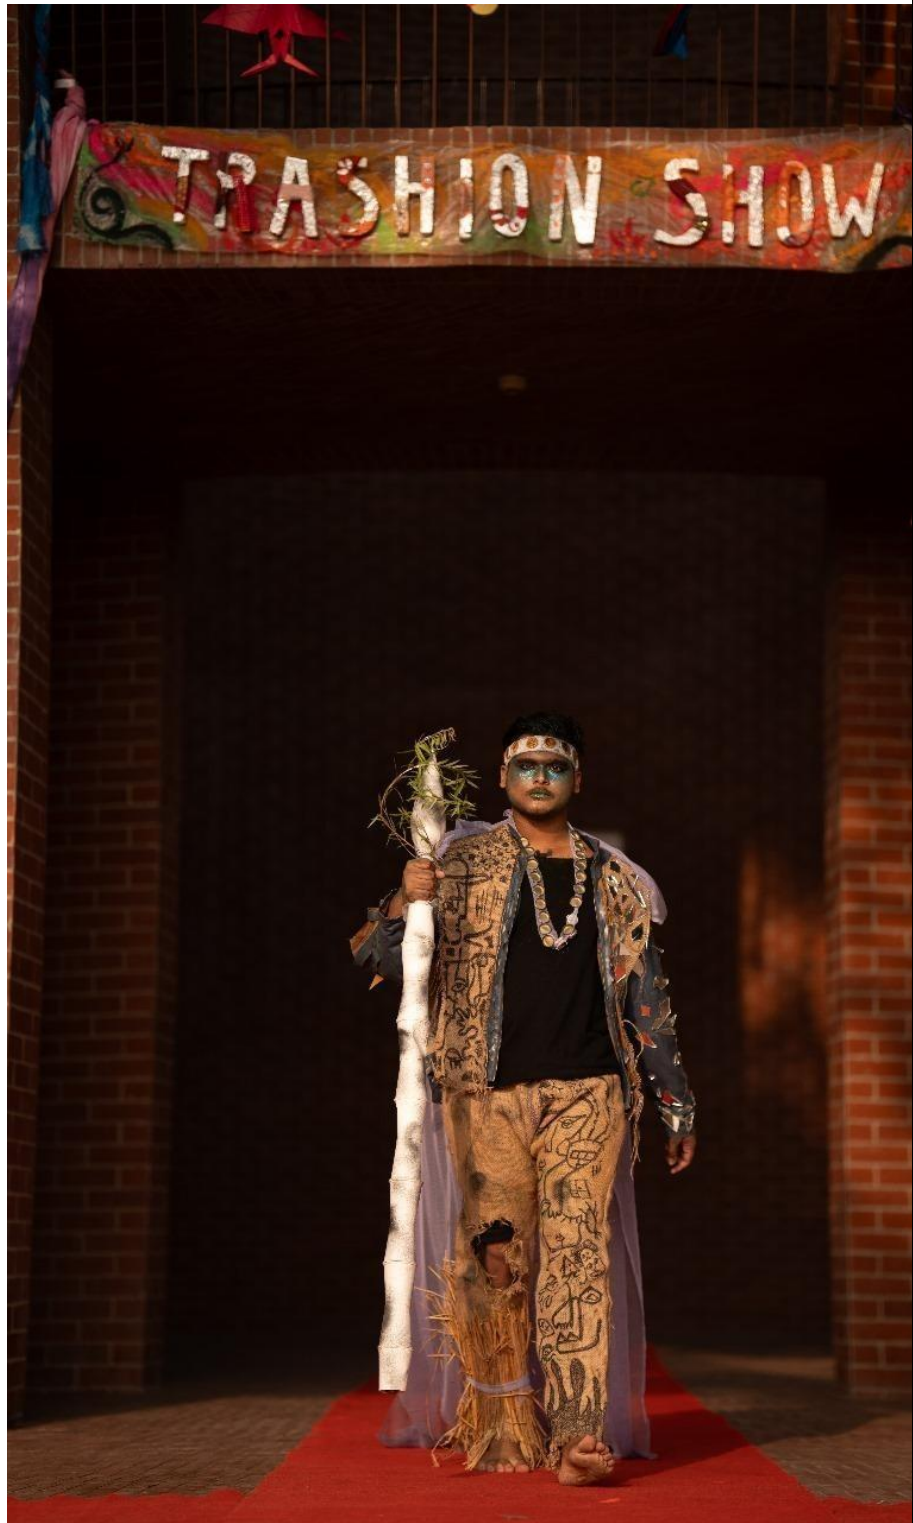

and made half of the cloud to end the day's work. On the second day, we made the white dress. After we made the upper part with bandages and tissue, the flower that gave the pin was not there. I did not understand what to do. Later, around 2:30 AM, Safin and I left the house to look for Pin. There was no one on the streets of Dhanmondi. Safin and I went to all branches of Laz Pharma to look for pins. But I don't get it. After failing, I come home and wonder what to do. After not finding a way to sew, And the lower part of the white dress is made with silt. On the third day, I could not work. I had dengue. I got sick. My other two team members were doing the rest of the job. This is how we end our session.

		
Exhibition		
Exhibition: (Where was the show, how was that platform, who were the spectators, was any other platform better for the show, and why?) (150 -250 words) (Please attach some images/screenshots of your final work and show)	The training was held in front of the D building of the permanent campus of ULAB on December 9. Our platform was from the 2nd floor stairs of the D building of ULAB to the main gate of the D building. Various dignitaries were present at the ceremony. Shishir Bhattacharya, a teacher in the Fine Arts Department of Dhaka University, was the chief guest. Also present was actress Afia Tabassum Borno. Raisa Naushin was the first organizer of the Trayon Show. Also present were VC Imran Rahman and Pro VC Jude William Genilo. Besides, this year's organizers, Rifah Islam Mounota, Ansa Tasfia Suhi, and Afia Ibnat Eusufzai Bonny, were present. Besides, Somoy TV was the media partner. The club partner was Ulab Art and Photography Club. I think Shilpokola Academy is a good place for this show. Shilpokola Academy is a national place. If done here, this art will spread not only in Ulab but in the whole of Bangladesh. So for this art Shilpokola is a good place.	02

Feedback		04
(Please interview 5 people and ask the same 5 questions to each person to fill up the table below.) (Please edit question number 5 with your message in it, before you send the questions to your interviewee.)		
Question	Answer	
Interviewee:1		
1. Please tell me your name and profession (in detail).	Name:Ali Kodor Jaky	Profession (in detail): Occupation: Student Institution: Jagannath University Category: Chemistry Age: 26 years

2. Please tell me what message you get after seeing my artwork, or is it very confusing and very hard to understand?	Here, we can see the worst form of environmental pollution. Environmental pollution is fairly well understood. The beautiful, serene aspect of the environment especially attracts us. At the same time, we can easily understand the terrible shape it takes when damaged.
3. If you get any message, which clues have helped you to understand the message?	We know that white is the image of purity. So here, it means the purity of the environment. And the dark clouds and his pitiful visage clearly reveal the damage done to the environment.
4. Does this artwork look common or does it look extraordinary to you? If it looks unique or creative to you, what kind of uniqueness do you find in this work?	Here, the harmful side of the environment is highlighted by the use of various waste materials. Using waste materials is not harmful to the environment. For example, if you use new paper, you have to cut down trees to make that paper later. For that, paper trees must be destroyed. If we harm the environment to highlight the harmful aspects of the environment, it would be absurd. So for me, the work is simply amazing. The work of the group Trash D Crew is unique to me.
5. I wanted to tell you (write your message here). Have you found this message in this artwork? If my message could	It's pretty clear to me. Here, the pure side of the environment and the polluted form are clearly visible. But the man who is given a sack of tea is not clearly understanding the world. Here, I think we could have made the world appear more clearly with an abundance of green. Overall, I like the Trash D Crew group's work.

be more visible in it, please suggest it to me.		
Interviewee:2		
1. Please tell me your name and profession.	Name: Ashik Sarwar	Profession (in detail): Occupation: Businessman Age: 35 years
2. Please tell me what message you get after seeing my artwork, or is it very confusing and very hard to understand?	Very delicate work. I like it. It will give a great social message to society.	
3. If you get any message, which clues have helped you to understand the message?	It gives a great social message.	

4. Does this artwork look common or does it look extraordinary to you? If it looks unique or creative to you, what kind of uniqueness do you find in this work?	No very unique work. I actually had no idea people could do wonderful things with trash. It will be a landmark project for our youth.	
5. I wanted to tell you (write your message here). Have you found this message in this artwork? If my message could be more visible in it, please suggest it to me.	Yeah, very much visible.	
Interviewee:3		
1. Please tell me your name and profession.	Name: Tanzila Tahsin Saifa	Profession (in detail): Occupation: Student Institution: St Francis School & College

		Category: Commerce Age: 19 years
2. Please tell me what message you get after seeing my artwork, or is it very confusing and very hard to understand?	I get the message that we pollute the air by using plastic and other things. And it is high time to stop air pollution.	
3. If you get any message, which clues have helped you to understand the message?	I get the message to prevent air pollution. The use of dark and white tissues helped me understand the message.	
4. Does this artwork look common or does it look extraordinary to you? If it looks unique or creative to you, what kind of uniqueness do you find in this work?	It seems very creative in the sense that you have made this artwork. It is just awesome and thoughtful.	

5. I wanted to tell you (write your message here). Have you found this message in this artwork? If my message could be more visible in it, please suggest it to me.	Yes, I found the message.	
Interviewee:4		
1. Please tell me your name and profession.	Name: Rifa Tasnia Nabila	Profession (in detail): Occupation: Student Institution: Ahsanullah University of Science & Technology Category: CSE Age: 23 years
2. Please tell me what message you get after seeing my artwork, or is it very confusing	No, it was not.	

and very hard to understand?	
3. If you get any message, which clues have helped you to understand the message?	Their dressing sense and style are unique.
4. Does this artwork look common or does it look extraordinary to you? If it looks unique or creative to you, what kind of uniqueness do you find in this work?	Obviously, it's unique and extraordinary.
5. I wanted to tell you (write your message here). Have you found this message in this artwork? If my message could be more visible in it, please suggest it to me.	It's great and good to see them like that, and it's a great idea to reach people in this kind of environment.

Interviewee:5		
1. Please tell me your name and profession.	Name: SHOVONKAR DEY	Profession (in detail): Occupation: Teacher, Accounting. Institution: Govt. Shaheed Suhrawardy College Age: 32 years
2. Please tell me what message you get after seeing my artwork, or is it very confusing and very hard to understand?	Very Thoughtful.	

3. If you get any message, which clues have helped you to understand the message?	Dress up with body language.	
4. Does this artwork look common or does it look extraordinary to you? If it looks unique or creative to you, what kind of uniqueness do you find in this work?	The whole concept was unique. Especially the way you represent AIR.	
5. I wanted to tell you (write your message here). Have you found this message in this artwork? If my message could be more visible in it, please suggest it to me.	I Have.	
Realization		07

(Have you got all the feedback from the audience as you expected? Did the viewers get your message? Please explain the reasons why or why they did not get your message. What have you realized about your succession at the end? How should you do the fashion if you want to do it again? What were the strengths of your work? Why? What were your faults? How can you avoid your faults next time? What is your thought about this project?) (400-500 words)	Yes, I actually got the answer I expected. I hoped that everyone would understand. Five of my five interviewees got it right. They all felt that the point was obvious. According to them, we have managed to highlight the main theme. Yes, we actually got the message across to them. Our main theme is air pollution. We made a white dress that we wanted to represent the white part of the air. And one had a dress with a black cloud on the head. Which stands for the bad part of my air. Air was good before, and now we have made it worse. Also, we had a world. All together, we meant that the world had good air before, but now we have made it bad. As all the parts of our dress stand out, so does the whole theme. So they get the theme or message we want to convey. After this session, I realized that trash can also be fashioned well. Which takes the form of a separate art. Also, I learned while doing this that you have to work hard to get good results in anything. If I were to do it again, I would use the bleed medicine series. I will try to make the work more perfect. I will try to give an umbrella. The most powerful aspect of my work is that when people see our clothes, they understand what we want to convey. What could be more rewarding as a dressmaker? It is not enough to make a dress; what I mean by that dress is also a big issue. We were able to show off our dresses. Among our faults, I think we had a problem with time management. Besides, each of our homes is in a different place, which is one of the reasons for not being able to manage time properly. I felt that it would be better to work and maintain time if the house was side by side. If I do this show again, I will try to manage my time better. Yes, I think more projects like this should be done in the future. Creativity is in it. And there should be more and more such work. Even outside the course, such shows should be held once every year. Not only MSJ, but all departments can participate in it. It will improve everyone's fashion sense and encourage them to think outside the box.
